SAFETY INFORMATION

Important Safety Information

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can cause these "photosensitive epileptic seizures" while watching video games.

These seizures may have a variety of symptoms including: lightheadedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, or momentary loss of awareness. Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects.

Immediately stop playing and consult a doctor if you experience any of these symptoms. Parents should watch for or ask their children about the above symptoms—children and teenagers are more likely than adults to experience these seizures.

The risk of photosensitive epileptic seizures may be reduced by:

- sitting farther from the television screen,
- using a smaller television screen,
- playing in a well-lit room, and
- not playing when you are drowsy or fatigued.

If you or any of your relatives have a history of seizures or epilepsy, consult a doctor before playing.

Avoid Damage To Your Television

Do not use with certain televisions. Some televisions, especially front- or rear-projection types, can be damaged if any video games, including Xbox games, are played on them. Static images presented during the normal course of game play may "burn in" to the screen, causing a permanent shadow of the static image to appear at all times, even while video games are not being played. Similar damage may occur from static images created when placing a video game on hold or pause. Consult your television owner's manual to determine if video games can be safely played on your set. If you are unable to find this information in the owner's manual, contact your television dealer or the manufacturer to determine if video games can be played on your set.

Other Important Health and Safety Information

The Xbox video game system documentation contains important safety and health information that you should read and understand before using this software.

Using the Xbox

Video Game System

Page 1 of 9

Controller port 1 Eject button Controller port 2
Controller port 3 Eject button Controller port 3
Controller port 4 Eject button Controller port 4

- Set up your Xbox video game system by following the instructions in the Xbox Instruction Manual.
- Press the power button and the status indicator light will light up.
- Press the eject button and the disc tray will open.
- Place the TETRIS WORLDS disc on the disc tray with the label facing up and close the disc tray.
- Follow on-screen instructions and refer to this manual for more information about playing TETRIS WORLDS.

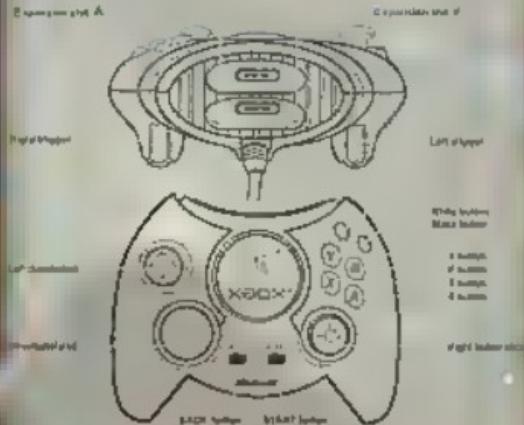

Avoiding Damage to Discs or the Disc Drive

To avoid damage to discs or the disc drive

- Insert only Xbox-compatible discs into the disc drive.
- Never use oddly shaped discs such as star-shaped or heart-shaped discs.
- Do not leave a disc in the Xbox console for extended periods when not in use.
- Do not move the Xbox console while the power is on and a disc is inserted.
- Do not apply labels, stickers, or other foreign objects to discs.

Using the Xbox

Controller

- Insert the Xbox Controller into any controller port of the Xbox console. For multiple players, insert additional controllers.
- Insert any peripheral (for example, Xbox Memory Units) in controller expansion slots as appropriate.
- Follow on-screen instructions and refer to this manual for more information about using the Xbox Controller to play TETRIS WORLDS.

INTRODUCTION

Tetris® Worlds™ is a collection of 3 already popular and 3 brand new Tetris® games. There are two ways in which to play these new games. The first way is Story Mode and games played here last as long times until a player loses out or beats the game at its highest level. The other is called Arcade Mode. Games played here are quick and competitive. So, no matter how you like to play your Tetris, you will find it in Tetris Worlds.

Tetris Worlds gives you the tools to become a better player. Among the innovations included in all Tetris Worlds games are a powerful multiple rotation system, a six deep next piece queue, hard and soft drops, a Shoot Piece to show where a piece will drop, and an option to swap a falling piece with one stored in a "Hold". These innovations are combined to make the Tetris variants in Tetris Worlds the best ever.

THE TETRIS WORLDS STORY

The Tetrians

There are many stories to the origin of the Tetrians. The simple truth is that the Tetrians are the only evidence of a long gone forgotten space-faring species. Tetrians are gateways to planets orbiting distant stars. They can only be opened by an intelligent species because it works only for those who unlock the secrets of the falling blocks. We have called the gate opening activity Totem. And this is the key to connecting us to distant worlds. Tetris has been found to be very addictive by all intelligent species.

The Minos

The Minos are a species found on the planet called Hadar 4. They are a robust mechanical species. It is possible that they were first built by organics, as is the case with most organisms. Minos are intelligent and have just unlocked the secret of the Tetrians. They now know that manipulating the blocks in a certain way will turn a Tetrian into an interstellar transportation device. The Tetrians will soon turn out to be the key to the survival of the Minos.

The Mission

The mission is to evacuate the Minos on Hadar 4 to six other planets that have been identified as suitable for terraforming. Mino scientists have discovered that their star (Hadar) has become unstable and so much the sunfarr of Hadar 4 will reach 5000 Kelvin, which is well past the maximum operating temperature of the Minos. The best Mino Tetris players have been identified as the main option. Six Tetrians will be sent to the planets to open the Tetrian gates from the other side to facilitate the exodus.

MAIN

MENU

When you launch Tetris Worlds you will be brought to the Main Menu.

Story Mode

This is the story mode of Tetris Worlds. There are six different worlds you can visit. Your Mino "TetraTeam" is back there. Your Mino will attempt to play the Tetris variant of that world well enough to rescue more of its Mino buddies. The better you play the more Minos become rescued. Once three Minos will work together to transform their new home from a barren place into a beautiful place.

Arcade Mode

This is the arcade mode of Tetris Worlds. Back on the home world, Mador 4, budding Tetris players work hard to hone their play skills in T-Town (Tetris Town). This is an arcade where players can test their Tetris ranks by trying to reach clean levels within a two-minute time limit. It is also possible for up to 4 players to compete on an XBOX video game system in exciting Tetris competitions.

Information

The Information Mino has a museum put together by an organic species that actually think they invented Tetris. You can find out their version of the history of Tetris. They also have all kinds of theories on how the Tetris variant work. Personally, we Minos think that they like themselves much too seriously.

Soundtracks

You can copy tracks from audio CDs using the Xbox video game system. Then you can arrange these tracks into soundtracks and play them from the Xbox video game system without running the original CD audio disc. You can play your soundtracks while playing Xbox games.

To copy tracks:

1. Play an audio CD
2. Select Back Track the music player
3. Select Copy to display tracks
4. Select the tracks you want to copy. You can select one track, multiple tracks, or all tracks
5. Select Copy to begin copying the tracks.
6. Select an existing soundtrack, or create a new soundtrack to store the copied tracks. If you create a new soundtrack, enter a name using the virtual keyboard.

To play soundtracks:

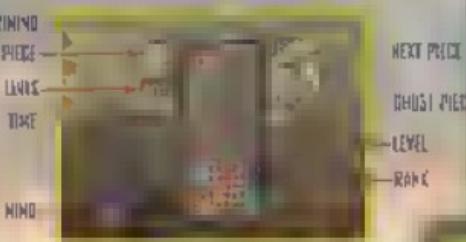

1. Turn on the Xbox console with no disc in the disc tray.
2. Select Music, and then select a soundtrack rather than Audio CD
3. Select Play to begin playing.

To change your soundtrack in Tetris Worlds:

1. Go to the Options Menu
2. Select Sound
3. Select Songs
4. Scroll through the soundtracks and select your preference

Aside from showing the Tetron (the game board where the Tetriminoes move) the green screen also displays important information about the current game.

- Tetromino** ... One of 7 shapes created by combining 4 blocks
- Level** The current Level that the player is playing at.
- Gems** The number of points required to complete the level.
- Score** The score that has been earned during the level
- Rank** The skill level a player has achieved for each variant of Tetris
- Cheat Pinon** An active representation of the position that the dropping pinon in the Matrix will occupy when it lands down
- Next Piece** The Next Piece that will be introduced to the Matrix. This will aid in planning your strategy
- Hold Piece** A Tetromino that has been placed on the "Hold" feature
- Mino** A character that represents you in Tetris Worlds.

TETRIS GLOSSARY

- Matrix** The game board or grid where all the pieces move around.
- Tetrimino** The device that contains the Matrix.
- Tetriminoe** The seven shapes formed by the joining of four Blocks.
- Block** A quantum of a Tetrimino. It takes four Blocks to make a Tetrimino.
- Hard Drop** The Tetrimino drops immediately and locks down. No further movement is possible and the next Tetrimino at the queue is dropped.
- Soft Drop** The Tetrimino drops faster than normal.
- Trin** Accomplishing 3 line clears at once.
- Garbage** Any Blocks in the Matrix at the beginning of a game. Garbage can be added to the bottom of the Matrix of a multi-player game in Knock-Out Mode.
- Multiminoe** Tetriminoes that contain blocks of more than one color.
- Polymino** Shapes formed by the joining together of Sticky Blocks.
- Sticky Block** Blocks that stick together when next to the same color.
- Grindoff Mass** An event when a Polymino containing 25 or more Blocks is cleared from the Matrix.

TETRIS GLOSSARY CONTINUED

- Link Down** The moment when the learning has no longer been moved.
- Brevity** The condition when Blocks can fall after two others.
- Connond** Subsequent line clear caused by Brevity.
- Un Clear** When 10 Blocks are aligned in a horizontal row and are cleared from the Matrix.
- T-Spin** The action of rotating the "T" Tetrimino into a right spin.
- Hot-Line** A specially marked row of cells in the Matrix.
- Fusion** When one or more Atom Blocks connect to and become Fusion Blocks.
- Pure Square** A 4 x 4 square formed by joining four identical Tetriminos.
- Combo Sognon** A 4 x 4 square formed by joining different colored Tetriminos.
- Avalanch** The event when Tetriminos disappear into Blocks and collapse.
- Hole Piece** A Tetrimino that has been set aside for later use.
- Top Out** When there is no more room in the Matrix for Tetriminoes.

GAME MODES

Choose either STORY MODE or ARCADE MODE from the Main Menu to begin a new game.

- Story Mode — Play until you lose. You lose when the Tetriminos reach the top.
- Arcade Mode — Play 2-minute and multi-player games.
- Information — Read about Tetris rules and historical facts about the game.

SELECT GAME MENU

Now select your Mind and your World (Tetris Game) to begin play. See TETRIS GAMES on pages 13-10 for descriptions of each game available in Tetris Worlds.

MIND CUSTOMIZATION

In Tetris Worlds, you will be able to customize your Mind's name, eyes, skin and accessories.

TETRIS GAMES

TETRIS

The objective of Tetris is to manipulate falling Tetriminos forming horizontal rows of blocks. A point is earned for each line cleared. Bonus points are earned for simultaneous line clears. Points earned are subtracted from your Goal. When your Goal reaches 0, the game levels up and becomes faster.

The line clear bonuses are:

Double	+	1
Triple	+	2
Tetris	+	4
Back-to-Back Tetris	+	8
T-Spot >1, clearing 1 line +2, clearing 2 lines	+	7

There are 15 Levels in tetris. The player's goal is to earn 5 times the Level in points.

Example:

Level 1	5 points
Level 2	10 points
Level 3	15 points
Level 15	75 points

SQUARE TETRIS

The objective of Square Tetris is to combine Tetriminos into squares in addition to playing Tetris lines cleared that contain a piece of the 4x4 square earn big bonuses. Also, a T-spin coupled with a line clear will cause blocks in the Matrix to Avalanche. After an Avalanche occurs, lines cleared that were part of squares will no longer receive the square bonus.

The line clear bonuses are:

Double	+1
Triple	+2
Tetris	+4
T-Spin + 1, clearing 1 line + 3, clearing 2 lines	+7
Pure Square	+40
Combo Square	+20

There are 15 Levels in Square Tetris. The player's goal is to clear 10 times the level in points.

Example:

Level 1	10 points
Level 2	20 points
Level 3	30 points
Level 15	150 points

CASCADE TETRIS

The objective of Cascade Tetris is to clear lines that cause Cascades while playing Tetris. A Cascade happens when Blockn falling due to a line clear causes another line to clear. The more Cascades a player can cause with one Tetrimino, the bigger the bonus will be.

Lines Cleared + Bonus Points (Lines cleared * 1) + (Cascades * 2) = Total

The following example shows what the score will be when a player performs a Tetris, and that causes a 6 cascade:

Lines Cleared	Bonus Points	Cascade Bonus	Total
4	4	0	8
1	0	2	3
1	0	4	5
1	0	6	7
1	0	8	8
1	0	10	10
1	0	12	12

Hence Total = 56

There are 15 Levels in Cascade Tetris. The Player's Goal is to clear 10 times the level in points.

Example:

Level 1	5 points
Level 2	10 points
Level 3	15 points
Level 15	75 points

STICKY TETRIS

The objective of Sticky Tetris is to clear the bottom line of Garbage Tanks. Gravity is turned on, as in Standard Tetris, so Collapses happen. Blocks of the same color stick together. When 25 blocks of the same color connect, they form a Critical Mass and are cleared from the Matrix.

There are 16 Levels in Sticky Tetris. For each Level there will be that many rows of Garbage in the Matrix plus the bottom row of Garbage that is the Goal.

HOT-LINE TETRIS

The objective of Hot-Line Tetris is to clear lines of blocks on the Hot-Lines. There are six Hot-Lines in the Hot-Line Matrix. The higher up the Matrix, the more points are awarded for the line clear. If you clear a line that is not on a Hot-Line, you will not receive anything towards the Goal.

Points earned for clearing Hot-Lines are:

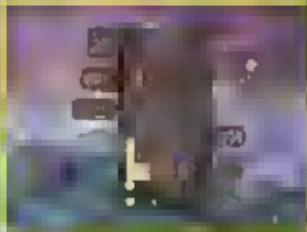

Green	_____	1 point
Yellow	_____	2 points
Orange	_____	3 points
Red	_____	4 points
Purple	_____	5 points
Blue	_____	6 points

There are 15 Levels in Hot-Line Tetris. The player's Goal is to earn 5 times the Level number in points.

Level 1	_____	5 points
Level 2	_____	10 points
Level 3	_____	15 points
Level 15	↓	75 points

FUSION TETRIS

The objective of Fusion Tetris is to connect falling Atom Blocks to the Fusion Block at the bottom of the Matrix. Clearing a line consisting of Atom or Fusion will cause a Cascade. Neither Atom or Fusion Blocks are cleared in a line clear.

There are 15 levels in Fusion Tetris. For each level there will be that many Tees of Garbage plus one in the Matrix. The player's goal is to connect 2 times the level of Atom Blocks to the Fusion Block.

Example

- Level 1 Connect 2 Atom Blocks to the Fusion Block
- Level 2 Connect 4 Atom Blocks to the Fusion Block
- Level 3 Connect 6 Atom Blocks to the Fusion Block
- Level 15 ↓ Connect 30 Atom Blocks to the Fusion Block

LEARNING TETRIS

Learning Tetris is recommended for people who have never played Tetris before. A player who has played through the levels of Learning Tetris has become a Tetris Player and is ready to play the many other Tetris variants included in Tetris World.

In Learning Tetris a player learns to handle the seven Tetrominos one by one. Once a player has learned how to use a Tetrimino to build lines, the level goes up and a new Tetrimino is introduced. The game speed is very reasonable to give the novice player plenty of reaction time.

A Tetrimino is made of four blocks. There are seven different Tetrominos. Tetris is a game in which a player manipulates falling Tetriminoes to build horizontal lines of blocks. After a line of 10 blocks is built, it disappears. A better player builds lines more efficiently. After a certain number of lines have been built, the game's level of difficulty goes up.

It is better to form more than one line at a time. One line is called a Single. Two lines are a Double. Three lines are a Triple. Four lines built all at once is called a Tetris. Two Tetris built one right after the other earn the player a Block-to-Block bonus.

NOTES

LIMITED WARRANTY

Warranty and Service Information

If the warranty period for a problem with your product (Product) or you may only need simple instructions to correct the problem, please contact the TID Inc. LIMITED Customer Service Department at 800-888-0356 or go to www.tid.com. Please have the part before returning the Product to TID. Use Customer Service Representative if you require assistance to help you. Mail the Product through Friday 9am to 5pm PST to www.tid.com our designated return shipping address. For the Week 24 hours a day, 7 days a week. Please do not send any Product to TID without returning us first your 5 digit Product Code or S/N. Please use this code to identify your Product when contacting us.

Limited Warranty

TID will act in the best of TID's ability in the original consumer purchases of its Products. The medium on which the Product is sold shall be free from defects in materials and workmanship for a period of ninety (90) days from the original date of purchase. The Product is sold "AS IS," without a warranty or implied warranties of any kind, and TID is not responsible for any loss or damage of any kind resulting from use of the Product. If a defect occurs during the ninety (90) day warranty period, TID will either repair or replace, at TID's option, the Product free of charge. In the event that the Product is no longer available, TID may, at TID's discretion, replace the Product with a Product of comparable value. The original purchaser has the right to the warranty only if the original purchaser is requesting at time of sale or at the time of return to TID, proof, in TID's discretion, that the product was purchased within the first ninety (90) days.

To receive our only service:

Notify the TID Customer Service Department of the problem requiring a warranty service by calling 800-888-0356 or go to www.tid.com. At the TID Service Center we are ready to solve the problem by phone or go to the web site. We will be willing to have you return the Product, if your trial of usage, freight and insurance are paid for by you, together with your dated sales slip or invoice and purchase within the ninety (90) day warranty period to:

TID Inc.
Customer Service Department
2700 Alton Road, Suite 278
Calabasas Hills, CA 91307

TID reserves compensation for unauthorized returns of Product and reserves the right to send back unauthorised returns back to customers.

This warranty is not applicable if: (a) the Product is in the limited edition version (L model); (b) the Product is used with products not sold or licensed by Microsoft or TID (including but not limited to, third-party game enhancement and copy protection software and/or hardware); (c) the Product is used for a commercial purpose; (d) modifying parts; (e) the Product is modified or tampered with; (f) the Product is modified after being shipped, defaced or removed.

Telephone Line Equipment Warranty

After the warranty (90) day warranty period, defective Product may be replaced by the Limited Grace Period for US\$25.00. The original purchaser is entitled to the replacement of defective Product for a fee, only if proof of purchase is provided to TID. Microsoft shall be liable to TID for the cost to repair the product along with the original proof of purchase to TID, less the above.

Warranty Limitations

THIS WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES AND REPRESENTATIONS. NO OTHER WARRANTIES OR IMPLICATIONS OR CLAIMS OF ANY NATURE SHALL BE GRANTED BY OR OBLIGATE TID AND APPLICABLE IMPLIED WARRANTIES OR REPRESENTATIONS, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE HEREBY LIMITED TO NINETY (90) DAYS FROM THE DATE OF PURCHASE AND ARE SUBJECT TO THE CONDITIONS SET FORTH HEREIN. IN NO EVENT SHALL TID BE LIABLE FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES RESULTING FROM THE BREACH OF ANY EXPRESS OR IMPLIED WARRANTIES.

The procedures of this warranty will valid in the United States only. Some states do not allow limitations on how long an implied warranty lasts or exclusion of consequential or incidental damages, so the above limitations in this statement may not apply to you. This warranty grants you specific legal rights, and you may also have other rights, which may vary by state law in your state.

Warning

Copying of this Product or any of its components or elements is illegal and is prohibited by United States and international copyright laws. It is a violation of federal law to copy or distribute it. If you obtain a software element or elements are not obtained and are not a copy or reproduction of the Product, United States and International Copyright laws also protect this element and certain protected material contained within the Product. Violation will be prosecuted.
